### TECHNOLOGICAL UNIVERSITY (KYAUKSE)

### **Department of English**

#### 2019-2020 Academic Year

#### **Course Outcomes for Third Year**

Blueprint B2 (Pre-advanced) is a communicative language course with balanced instruction. It focuses on practical tasks, real-life objectives and adaptable resources. It is arranged into 8 module-based units. Every unit of this book contains five lessons and is bounded together by preview and review sections. In addition, the learners are able to do further study with digital materials and online resources.

By the end of this course, the students will be able:

- > To achieve confidence in reading skills which reflects functional goals based on practical and productive use
- > To apply a wide range of vocabulary and grammar structures effectively to meet the goals of communication in independent and life-long learning
- > To improve productive skills in writing based on practical and purposeful experiences of real world
- > To be skillful in communicative and fluency activities through speaking and listening contents supplied with audio, video and online materials
- > To get global communicative goals by role play, pair work or group work dealing with the assigned work
