	Information on Civil Engineering Drawing I	
1.	Unit name: Civil Engineering Drawing I	
2.	Code: CE-22012	
3.	Classification : Engineering Subject	
4.	Credit Value : 2.5	
5.	Semester/ Year Offered : 1/2	
6.	Pre-requisite (if any) : None	
7.	Mode of Delivery : Lecture and Practical	
8.	Assessment System and Breakdown of Marks:	
	Practical	30%
	Final Examination	70%
	Total	100%
9.	Academic Staff Teaching Unit :	
10.	Objective of Unit:	
	The main objective of this unit is to illustrate the building and building facilities.	
11.		8 8
11.	Learning Outcome of Unit:	
11.	On completion of this unit, a student shall (a) Draw footing, retaining walls, stair	be able to:
11. 12.	On completion of this unit, a student shall	be able to:
	On completion of this unit, a student shall (a) Draw footing, retaining walls, stair (b) Illustrate single storey building.	be able to: s, window, doors and trusses.
	On completion of this unit, a student shall (a) Draw footing, retaining walls, stair (b) Illustrate single storey building. Synopsis of Unit: This unit enables students to apply the sense	be able to: s, window, doors and trusses. ses of the building, building facilities, wing of building components, Footing,

12.	<ul> <li>On completion of this unit, a student shall <ul> <li>(a) Draw footing, retaining walls, stair</li> <li>(b) Illustrate single storey building.</li> </ul> </li> <li>Synopsis of Unit: <ul> <li>This unit enables students to apply the sense culverts and bridges.</li> <li>Fundamental of engineering drawing, Draw Retaining walls, Stairs, Windows, Doors, Testorey building.</li> </ul> </li> <li>Topic 1: Draw footing, retaining walls, stairs, stairs,</li></ul>	be able to: s, window, doors and trusses. ses of the building, building facilities, wing of building components, Footing, Trusses, Working drawing, Single tairs, windows, doors and trusses. ing, Drawing of building components,
12.	On completion of this unit, a student shall         (a) Draw footing, retaining walls, stair         (b) Illustrate single storey building.         Synopsis of Unit:         This unit enables students to apply the sense culverts and bridges.         Fundamental of engineering drawing, Draw Retaining walls, Stairs, Windows, Doors, Testorey building.         Topic 1: Draw footing, retaining walls, stairs, Fundamental of engineering drawing	be able to: s, window, doors and trusses. ses of the building, building facilities, wing of building components, Footing, Trusses, Working drawing, Single <b>tairs, windows, doors and trusses.</b> ing, Drawing of building components, Vindows, Doors, Trusses.
12.	On completion of this unit, a student shall         (a) Draw footing, retaining walls, stair         (b) Illustrate single storey building.         Synopsis of Unit:         This unit enables students to apply the sense culverts and bridges.         Fundamental of engineering drawing, Draw Retaining walls, Stairs, Windows, Doors, T storey building.         Topic 1: Draw footing, retaining walls, stairs, Windows, Stairs, Windows, Stairs, Windows, Stairs, Windows, Stairs, Windows, Stairs, Windows, Stairs, Storey building.	be able to: s, window, doors and trusses. ses of the building, building facilities, wing of building components, Footing, Trusses, Working drawing, Single tairs, windows, doors and trusses. ing, Drawing of building components, Vindows, Doors, Trusses.
